EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Claims:

Please cancel nonelected claims 7, 21, 25 as being directed to a nonelected invention.

This application is in condition for allowance except for the presence of claims 7, 21, 25 non-elected without traverse. Accordingly, claims 7, 21, 25 have been cancelled.

The following is an examiner's statement of reasons for allowance:

It is well known in the art to apply a coating composition containing a polymer, an active agent, and a solvent to a medical device and evaporating the solvent as noted in Hansen (6,669,980). It is further noted that a coating containing a polymer containing a solvent can subsequently be applied followed by the evaporation of the solvent (P29 of WO 03/022323). However, the prior art references do not teach the subsequent application of a fluid which is substantially of completely free from any polymer and removing the fluid from the coating.

Art Unit: 1762

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
